Ref: CG Docket No. 02-278
Rules and Regulations Implementing the Telephone Consumer Protection
Act of 1991

I am an employee of Teleperformance USA, in Memphis, Tennessee as a Telephone Sales Representative. I am quite proud to help in the marketing of top products offered by major Corporations throughout the USA. I share an office with a large group of good honest hard working individuals, closely supervised and trained by a well-qualified team of Supervisors.

It is totally unfair that a legitimate group of Telephone Sales Representatives such as ours, should be placed on the same level with cheap disreputable scam artist and/or companies that do not follow current FTC rules and regulations, that give our company a bad name. This industry is filled with individuals who are the only support of their families, and of course health care is not in the picture. Some are currently enrolled in institutions of higher learning and some of whom are supplementing their income through hard work. Most of these people are under the government poverty level financially, but continue to strive for a better life for their children, and not be an overburdened part of the welfare system in this country. Too many have been devastated by corporate sell outs and corporate failures to lose yet another job. I hope this industry is not forced to layoff large numbers of people because a minority of dishonest operators cause a blanket approach to a National Do Not Call Registry. It will certainly hurt the hard working class that continues to strive for a small piece of the Great American Dream.

As a hard working telemarketer, with limited income, certainly oppose the National DNC list and such harsh restrictions on Predictive Dialers. I fully support Teleperformance USA's and the American Telemarketing Association's proposed modifications to the FTC rules.

Sincerely,

A handwritten signature in black ink, appearing to read "Dominic Jones".

I hope this industry is not forced to layoff large numbers of people because a minority of dishonest operators cause a blanket approach to a National Do Not Call Registry. It will certainly hurt the hard working class that continues to strive for a small piece of the Great American Dream.

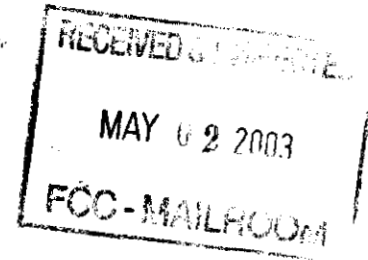

As a hard working telemarketer, with limited income, certainly oppose the National DNC list and such harsh restrictions on Predictive Dialers. I fully support Teleperformance USA's and the American Telemarketing Association's proposed modifications to the FTC rules.

Sincerely,

April 24, 2003

Ref: CG Docket No. 02-278
Rules and Regulations Implementing the Telephone Consumer Protection
Act of 1991

I am an employee of Teleperformance USA, in Memphis, Tennessee as a Telephone Sales Representative. I am quite proud to help in the marketing of top products offered by major Corporations throughout the USA. I share an office with a large group of good honest hard working individuals, closely supervised and trained by a well-qualified team of Supervisors.

It is totally unfair that a legitimate group of Telephone Sales Representatives such as ours, should be placed on the same level with cheap disreputable scam artist and/or companies that do not follow current FTC rules and regulations, that give our company a bad name. This industry is filled with individuals who are the only support of their families, and of course health care is not in the picture. Some are currently enrolled in institutions of higher learning and some of whom are supplementing their income through hard work. Most of these people are under the government poverty level financially, but continue to strive for a better life for their children, and not be an overburdened part of the welfare system in this country. Too many have been devastated by corporate sell outs and corporate failures to lose yet another job. I hope this industry is not forced to layoff large numbers of people because a minority of dishonest operators cause a blanket approach to a National Do Not Call Registry. It will certainly hurt the hard working class that continues to strive for a small piece of the Great American Dream.

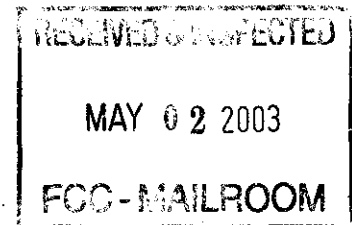

As a hard working telemarketer, with limited income, certainly oppose the National DNC list and such harsh restrictions on Predictive Dialers. I fully support Teleperformance USA's and the American Telemarketing Association's proposed modifications to the FTC rules.
